

Ultrasound Guidelines

Currently, the Raby Institute is only doing Transvaginal & Transabdominal, and full Abdomen ultrasounds. We are not doing anything from the chest up, including breasts, arms/lymph, and thyroid, at this time.

*******Pelvic Transabdominal*******

Patients should drink 32 ounces of water 30 minutes before their appointment. Patients should refrain from urinating until after the ultrasound appointment.
Food is ok.

*******Full Abdomen, (Gall Bladder, Liver, Pancreas, Kidney) *******

No food or liquids 8 hours before the ultrasound appointment.

Except for Kidney/Bladder ultrasounds - patients should drink 32 ounces of water 30 minutes before their appointment. Patients should refrain from urinating until after the ultrasound appointment.

Food is ok.
